Description of Request:

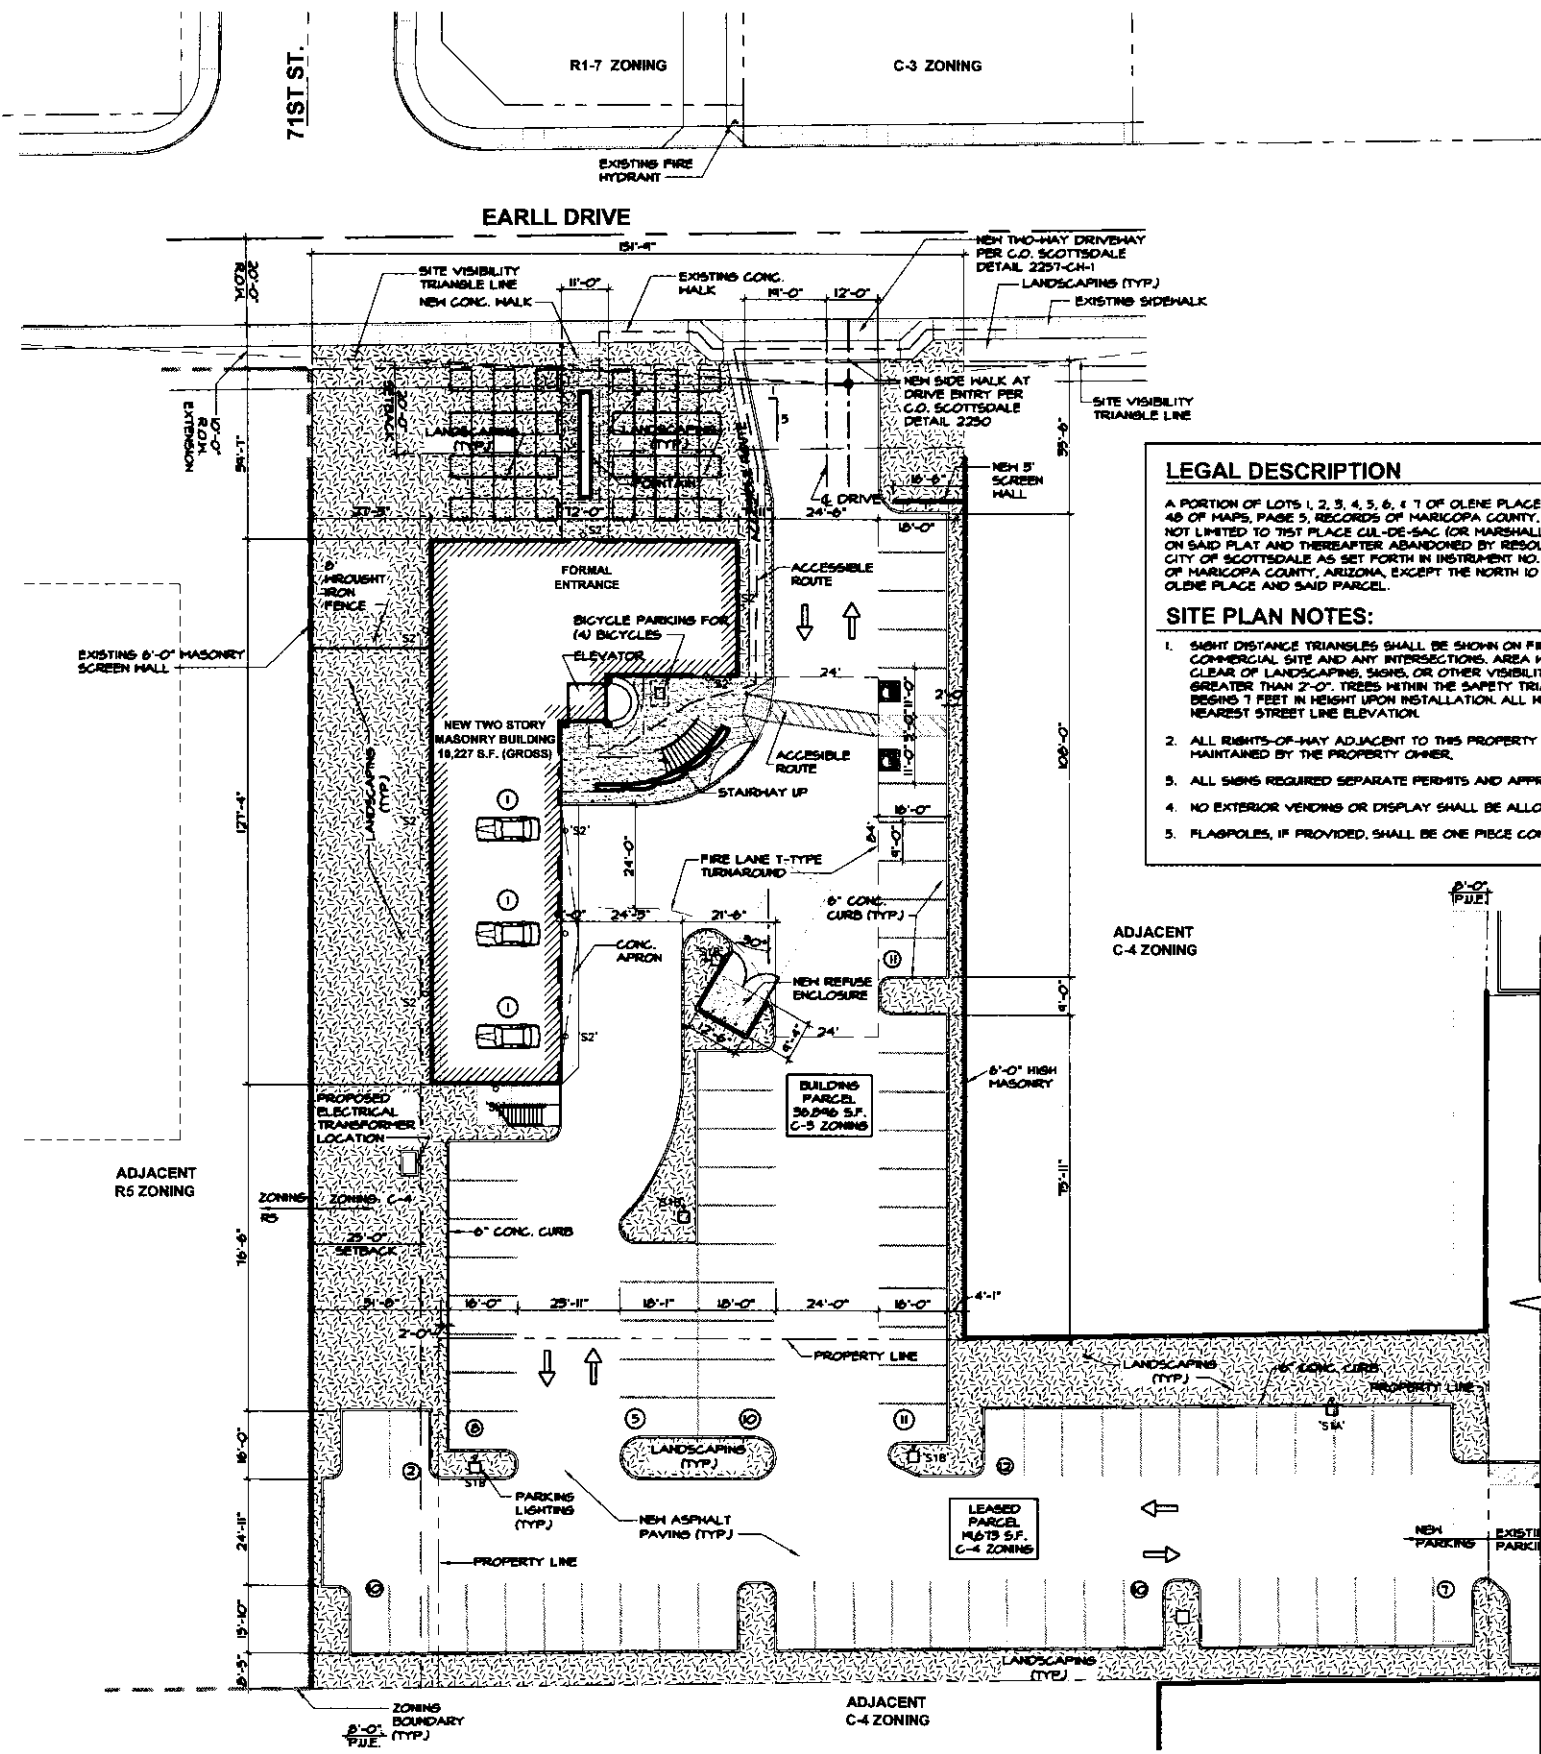

We are submitting plans to the city of Scottsdale for a new 10,227 s.f. multi-use, multi-tenant commercial building on a currently undeveloped commercial lot. Due to technicalities with the existing zoning and use permit for this site, we are required to re-zone the site from a C-4 to a C-3 classification to allow for the extent of office planned for the building and alter the existing use permit to allow a leased portion of this site to be used for parking for this and neighboring sites. We are also submitting this project for design review by the City of Scottsdale.

The net area for the property on which the building is to be sited is 36,896 s.f. (.847 ac.) There is an adjacent site 19,673 s.f. (.452 ac.) which is being leased and developed for the purpose of providing additional parking to be shared with neighboring properties. The parking lot will be screened by 6' high screen walls as required by the city code. The site is bordered by an R-5 zoned lot, so a 25' setback is required from the multi-family residential zone. The front yard is set to match the 20' setback of the R-5 zone. No other setbacks are required.

The building is planned to be of 2-story masonry construction with art deco style design features constructed of EIFS over steel framing. The first level is planned to be used as a 5,341 s.f. storage area. The second level is planned to be used as a 4,886 s.f. office/workshop area for local craftsmen and artisans. The building will be 32'-0" high.
